Handle with Care

With this " manual for me" you can create a better understanding for each other in the team and thus make working together better and more "joyful". Think about what your colleagues should know about you in order to better understand you and your way of working.

This inspires me & gives me energy

It stresses me out & drains my energy

I can support others well in this

This is important to me when working with others

What I need to get into flow

Please give me feedback in the following way

Fold inward as shown here

Visit our methodbox for more information

Fold inward as shown here

You can count on me for that

This is my very special trick

This is my superpower

And what else should you know about me ...
